www.eway.co.nz

Welcome To eWAY®!

eWAY® is a global payment gateway provider. We provide you with a fully automated eCommerce solution that will allow your business to accept online credit card payments securely in real time.

Our secure connection to the banking network ensures your funds are safe and protected. The eWAY® system never holds your money in trust and you are in full control of your funds at all times.

We help you grow your business...

We offer a large range of eCommerce products and services all of which will help you increase your online sales.

With our scalable network we can help you grow your business as your needs change.

...and give you everything you need

- Dedicated 24/7 expert support and monitoring
- Simple 3-step online sign up process
- Easy shopping cart integration
- Highest level of infrastructure and security
- Multiple payment solutions to suit all business models
- More third party software applications supported
- Accept payments from anywhere on the planet

"I would highly recommend eWAY® for their reliability and the can-do attitude they have always displayed towards assisting our fast-growing business."

Conor Woods, General Manager,
Setanta Sports™

Grow Your Business Online!

We help your business accept payments 24/7 while funds settle directly into your Internet merchant facility.

The eWAY® real time payment process is safe and easy with typical payments taking less than 3 seconds to complete.

“eWAY® was recommended to us early on and it became increasingly obvious in the first stages of due diligence that eWAY® had an extremely competitive product...From the decision to go with eWAY® we were ready to trade online within a matter of days.”

Richard Morrison, Manager,
IMAX®, Melbourne Museum

We provide you with a range of eCommerce services to help you succeed!

At eWAY® we offer an extensive range of products ready to be integrated into your payment structure. We hold the solutions to all of your eCommerce needs.

Your account includes access to the eWAY® Business Centre where you can manage your online payments, process online refunds and view detailed transaction reports. All information is updated in real time.

Real Time Payments

All of your customers' transactions are processed in real time, allowing you to dispatch your orders as soon as payment is successful.

Manual Processing

Receive payments by mail, fax or phone by manually entering your customers' credit card details in your eWAY® Business Centre.

Mobile Payments

We are partnered with Mint Wireless™ to allow payments via your mobile phone. A mobile printer can be added to collect your customers' signature.

Anti Fraud with Beagle

Assisting you to manage online risk - you can set up custom rules to block transactions you do not wish to process.

Multicurrency

We assist in giving you a global reach by allowing payments in other major currencies including USD, POUNDS and EUROS.

We Make Integrating To eWAY® Easy!

We offer FREE sample source code and examples in all the major programming languages, assisting developers while saving you time and money.

- ASP
- C#
- C++
- ColdFusion
- HTML
- JAVA
- PHP
- VB.NET
- XML

Supported shopping carts

The fastest way to integrate to eWAY® is using a shopping cart with pre-written payment modules allowing you to be up and running in minutes.

Our integration with over 120 shopping cart providers around the world expands your choices, reduces your costs and gets your online shop live sooner.

You can choose from global providers including:

1ShoppingCart	PHPCart	OSCommerce
ZenCart	CubeCart	Magento
Drupal	Volusion	Virtuemart
BusinessCatalyst	Infusionsoft	IASP
VPASP	eknowhow	XCart
Storesonline	ModernBill	WHCMS
AShop	Shopify	Interspire

Sign up in 3 easy steps!

Our unique sign up process allows us to provide your details to your chosen bank so they can quote you on an Internet merchant facility.

1. Sign up online

Visit eway.co.nz and sign up online; the application is easy and takes only a few minutes.

2. Banks will contact you

It can be time consuming and complicated to setup an Internet merchant facility with a bank. At eWAY® we can help you with this process.

3. Start accepting payments

You are now ready to finalise your eWAY® application and watch your business grow online. We wish you good luck!

“We’ve used eWAY® since the start of Zazz and we couldn’t be happier. They have a very easy API and if you need support the support staff are fantastic.”

Alfred Milgrom, Director,
Zazz Trading™ Pty Ltd

Leverage Off Our Payment Cloud

One connection point for all your global eCommerce needs

The next generation of payments is here with eWAY®. We have built a unique “Payment Cloud” with our specialised payment applications, allowing you to connect to our ever increasing banking network, helping your business to grow locally and internationally.

Our extensive network is contained within our “Payment Cloud”, allowing us to grow to your needs and provide exceptional uptime - you can relax! Best of all we listen to you when expanding the functionality of our “Payment Cloud” to achieve more of what your business needs at no additional cost to you.

Frequently Asked Questions

How do I start an eCommerce business?

- Register a domain name and get your website online with the help of a web hosting company.
- Use a shopping cart or developer to build your website.
- Secure your website with an SSL certificate.
- Sign up with eWAY®!

What is an Internet merchant facility?

This is a specialised banking facility for your Internet business allowing you to accept credit card payments online. We offer a special service that can put you in contact with your preferred bank to begin setting this up.

Why not connect directly to a bank?

When you connect to eWAY® your customers stay on your website during payment, providing you with a more professional solution. You have access to our large range of products, 24/7 support and are dealing with a company focused on your eCommerce success.

How long does it take to activate?

Your eWAY® account will be activated within 1-2 working days. If you require your account to be set up faster, we offer priority activation where your account will be setup within the hour.

We Implement The Highest Levels Of Security

We pride ourselves in offering the highest level of security and services possible for you and your customers. Our partnership with key providers ensures excellent uptime and all your data is secured and monitored 24/7.

PCI DSS compliant 

eWAY® is PCI DSS Tier 1 certified and is audited annually by external authorities to gain such accreditation. We take credit card security very seriously and so does our hosting partner Macquarie Telecom™ (the region's only PCI DSS certified hosting provider).

Our website is scanned daily by McAfee Secure™ to ensure the integrity of the eWAY® network.

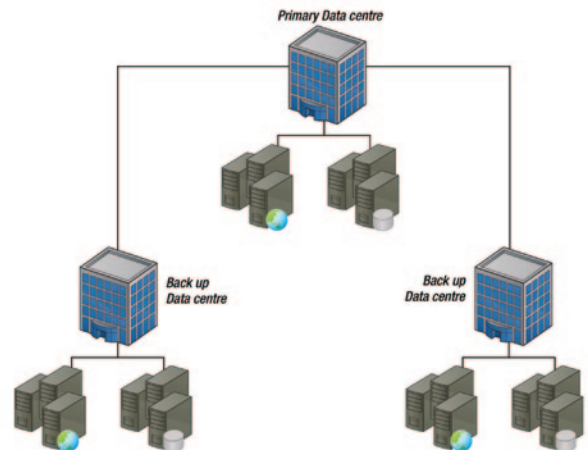

Enterprise encryption

We know the security of your payment data is important to you and your customers, so we encrypt all data with clustered Ingrid™ encryption devices through the highest level of protection available.

Data centres

eWAY® uses multiple data centres to provide disaster recovery for its entire network. With clustered web and database architecture we can provide exceptional uptime. We choose to use VeriSign™ to ensure 100% DNS uptime.

SSL certificates

Protect your customers' private data and secure your website. SSL certificates encrypt information entered on your website, increasing your customers' confidence when purchasing online. Get the padlock and validate your business to increase trust and drive sales.

History, Recognitions And Awards!

eWAY® has been processing payments since 1998 and has ever since been at the cutting edge of new technology.

Helping over 10,000 businesses take online payments, eWAY® continues to improve and enhance the payment experience for all concerned.

eWAY® has established itself as a leader in online payments with a strong customer service focus. The eWAY® global group has a strong presence in the UK, New Zealand and Australia.

- 2008 Telstra ACT Business of the Year
- 2008 Telstra MYOB Small Business Award
